DAT™ Next Generation

Harness the power of computer adaptive tests to assess those abilities that predict success.

Differential Aptitude Tests™ or DAT™ is a gold-standard suite of assessments measuring cognitive abilities in a number of different areas. This latest edition, DAT™ Next Generation combines cutting-edge Computerised Adaptive Testing technology or CAT to offer five new DAT tests in a number of languages.

Compared with traditional fixed form tests CAT presents a modern method of delivering item-banked tests to job applicants or students with many benefits over previous version.

Each DAT™ Next Generation sub-test contains only 15 items & measures the following:

1. **Verbal Analogies**. Measures verbal reasoning by the relationships between pairs of words.
2. **Numerical Calculations**. Measures addition, subtraction, division, percentages, algebra & multiplication.
3. **Numerical Sequences**. Measures problem solving abilities with numbers.
4. **Abstract Reasoning**. Looks at ability to see sequences in shapes and patterns.
5. **Space Relations**. The ability to visualise 2D shapes in 3D.

**DAT™ Next Generation Benefits**
- Short, 15 item tests
- More reliable scores
- Better test taker experience
- Items presented at ability level of test taker
- One test - suitable for a wide range of ability levels

**Languages**
- English
- French
- Dutch (Coming 2019)
- Spanish (Coming 2019)

**Highly Predictive of Performance**

Launched in 1947 initially to support career guidance and vocational counselling in students, DAT’s use has since extended to measure an individual’s level of general and a number specific mental abilities that are required for success in many job roles and training courses. The increased usage of ability tests in these areas is supported by in-depth research showing that tests of mental ability are highly predictive of performance.

**Testimonial:** “85% of Counselors view the DATs as invaluable instruments in their work - reliable, valid, highly predictive of performance: effective, efficient and user friendly.” ETC Consult
